

COMMISSION STATEMENT

PRODUCTS:

Omeganomics: includes application, development and private labeled software. Percentages are based on what the OWNER receives via the company.

Telecommunication and other high technology: includes Speechphone, Edify, electrical and solar devices that save energy, IRIS 3000 Video Phone and other devices.

Skytyper Circuit Marketing: includes business card placement, advertisement, and other marketing tools.

These are the commissions for the above products:

10% on software for bringing leads to the company for sales engineers to close.

20% on software when working together on closing deals with a sales engineer.

35% on software when you close the deals by yourself including but not limited to on-site presentations, proposals, and other documents needed to help the client make decisions.

Skytyper Circuit Marketing: account acquisition payments. Your responsibility is to scan business cards and enter the client data into the portal daily. This account acquisition payments lasts for a limited period of time. The basis for the "account acquisition payments" is to identify accounts until you are earning commissions.

This is all retroactive to first card each week:

20 business cards yield \$0.20 each

40 business cards yield \$0.40 each

60 business cards yield \$0.60 each

80 business cards yield \$0.80 each

100 business cards yield \$1.00 each

Each week you start over.

Maximum business cards per week 120.

In the first week you get 101 cards and you earn \$101 dollars. Your commission and bonus will be in addition to this. If you close a "Promotional Discount Card" program for a business you earn 10% or 20% or 40% on account. If an account generates about \$10,000, and you close this by yourself, then your commission would be \$4,000 for just one account.
